

FY 2010 - State and Foreign Operations and Related Programs Request

Educational and Cultural Exchange Programs

Amount Requested: Language Request

Language Requested: The Committee urges that Arkansas State University receive consideration for support for its educational exchange and critical language training programs in Middle East and East Asian countries. Currently, Arkansas State University maintains bilateral agreements with 21 foreign institutions in countries located across the globe, allowing ASU students to study overseas at approximately the same cost as attending ASU. Further support would assist ASU in expanding opportunities for students and professors affiliated with Arkansas State University to participate in cultural and language exchange programs.
